**500 SAT Words, and How To Remember Them Forever!** By Trish Dardine, Charles Gulotta

This book does more than tell you which words to learn for the SAT. It teaches you how to learn them -- and not for temporary memorization, but for permanent retention. Using powerful (and funny) visual images, you'll build a mental bridge between each unfamiliar word and its simple meaning. You'll also discover dangerous look-alike and sound-alike words, which are frequently used as decoys on the SAT. You'll learn correct pronunciation and alternate parts of speech for each word. And you'll understand, maybe for the first time, how the SAT uses the confusion of the English language to lure you toward wrong answers -- and how to avoid those traps. Humorous cartoons and bizarre little stories make this a pretty entertaining book, considering it's about the SAT. (120 pages)

## **Editorial Review**

### **From the Author**

I've tutored high school students for eight years. I know how boring and exasperating this SAT stuff can be. So I've tried to create books that make the task less intimidating (these books aren't 900 pages), and far more fun than people expect it to be. There's a lot of fooling around, and even some great cartoons. But there's also, I hope, a wealth of valuable information and an approach that comes from the experience of seeing hundreds of students struggle and worry needlessly. The secret is simple: know the content, because all the tricks in the world won't help you get past gaps in your knowledge. And understand how this test works. I believe "500 SAT Words" will help you a great deal in both areas. Please feel free to contact me if you have any questions or concerns. And good luck!
