**Basic Offshore Safety: Safety induction and emergency training for new entrants to the offshore oil and gas industry** By Abdul Khalique

- Comprehensive insight into the offshore oil and gas industry for those intending to choose it as a career
- Full syllabus coverage for OPITO BOSIET, FOET, MIST and IMIST courses
- Produced in full colour with over 180 images

*Basic Offshore Safety* covers everything that newcomers to the offshore oil and gas industry need to know prior to travelling offshore or when attending OPITO's Basic Offshore Safety Induction and Emergency Training (BOSIET), Minimum Industry Safety Training (MIST), Further Offshore Emergency Training (FOET) and International MIST courses. Primarily focused on the oil industry, this book introduces readers to the key safety topics in the offshore support vessel industry and common to the renewable industry. Written in easy to follow steps and including references to both the legislation and guidance where relevant, Abdul Khalique walks the reader through the hazards they are likely to encounter when travelling to, from or working offshore, showing how to minimise risks and deal with any issues that may arise at any stage of the work.
