## Art & Practice of Creative Visualization By Ophiel

There's more to creative visualization than meets the eye! In this groundbreaking volume, first published in 1967, Ophiel lays out the 10 Laws of Creative Visualization. Once understood, they are as simple and as real as the laws of gravity or magnetism. In other words, they work.

Ophiel tells us how to do -- and undo -- the magic of visualization. Whether we want a new job, a new house, a new relationship, or a warm coat -- we can manifest that which will create happiness and comfort in our lives. And, should we discover that we've gotten it wrong -- that we neither want nor need what we've visualized, there are techniques to undo what has been done. Along with the theory, Ophiel offers plenty of practice in working with symbols, visualizing physical reality, making a "treasure chart," and understanding the role of emotion in visualization.

Work with the symbols in the book and learn how to create your own. This is practical metaphysics at its best. Love spells are forever, but if you want the object of your affection to go away, Ophiel tells you how to do that as well.

##### Linda Williams:

Do you really one of the book lovers? If yes, do you ever feeling doubt if you are in the book store? Make an effort to pick one book that you just dont know the inside because don't ascertain book by its deal with may doesn't work is difficult job because you are frightened that the inside maybe not while fantastic as in the outside appearance likes. Maybe you answer is usually Art & Practice of Creative Visualization why because the great cover that make you consider about the content will not disappoint you. The inside or content is actually fantastic as the outside or perhaps cover. Your reading 6th sense will directly make suggestions to pick up this book.

##### Cheree Rodriquez:

As a college student exactly feel bored for you to reading. If their teacher requested them to go to the library in order to make summary for some e-book, they are complained. Just tiny students that has reading's spirit or real their passion. They just do what the instructor want, like asked to go to the library. They go to right now there but nothing reading very seriously. Any students feel that reading through is not important, boring in addition to can't see colorful photographs on there. Yeah, it is for being complicated. Book is very important for yourself. As we know that on this period, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. So , this Art & Practice of Creative Visualization can make you experience more interested to read.

##### Edward Trotta:

Reserve is one of source of expertise. We can add our know-how from it. Not only for students but also

native or citizen require book to know the update information of year to year. As we know those guides have many advantages. Beside all of us add our knowledge, also can bring us to around the world. By the book Art & Practice of Creative Visualization we can consider more advantage. Don't one to be creative people? To be creative person must prefer to read a book. Only choose the best book that ideal with your aim. Don't be doubt to change your life at this time book Art & Practice of Creative Visualization. You can more desirable than now.
