Clinical Pediatric Neurology: A Signs and Symptoms Approach 5th ED By Gerald M Fenichel MD

Featuring the work of Dr. Fenichel—one of the world's foremost pediatric neurologists—the completely revised and updated 5th Edition reflects the many new advances in the field. Organized by chief complaint, this resource features clear algorithms that smoothly guide readers step by step from presenting symptoms...through evaluation and management. Thorough discussions clearly define age at onset, course of illness, discriminating features, treatment options, and more.

- Features remarkably practical coverage of the primary neurological disorders of childhood.
- Organizes information by signs and symptoms for quick access to specific guidance.
- Makes an excellent review source for preparation for both neurologists and pediatricians, as well as for the pediatric section of the Neurology Board Certification exam.
- Includes a complete differential diagnosis of each presenting complaint, in table form, for easy reference.
- Provides fast access to relevant information through cross-references for disorders with diverse initial features.
- Allows readers to work their way through the difficult subject of neurodegenerative disorders, especially those caused by inborn errors of metabolism, with clearly designed algorithms.
- Discusses new drugs with updated guidance on dosages.
- Includes relevant clinical material on molecular genetic and inherited diseases.
- Presents emerging information on tests, diagnosis, and management.

Editorial Review

Review

REVIEW OF THE LAST EDITION -

"If you intend to write an accessible review covering a specialized area of medicine, this book should be the paradigm. It is the sort of book that is widely sought but seldom found. Fenichel's survey of childhood neurology is concise, accurate, provides extensive coverage of the field, and is salted with 'pearls of wisdom.'" - Pediatric Neurology

About the Author

Gerald Fenichel, MD, Professor of Neurology and Pediatrics and Chairman, Department of Neurology, Vanderbilt University School of Medicine, Nashville, Tennessee; Neurologist-in-Chief, Vanderbilt University Hospital and Vanderbilt Children's Hospital, Nashville

Users Review

From reader reviews:

Joni Griffith:

Playing with family in a park, coming to see the water world or hanging out with buddies is thing that usually you could have done when you have spare time, after that why you don't try point that really opposite from that. One particular activity that make you not feeling tired but still relaxing, trilling like on roller coaster you are ride on and with addition associated with. Even you love Clinical Pediatric Neurology: A Signs and Symptoms Approach 5th ED, it is possible to enjoy both. It is very good combination right, you still need to miss it? What kind of hangout type is it? Oh can happen its mind hangout people. What? Still don't obtain it, oh come on its called reading friends.

Ann Davis:

Are you kind of occupied person, only have 10 or perhaps 15 minute in your time to upgrading your mind expertise or thinking skill actually analytical thinking? Then you are experiencing problem with the book than can satisfy your small amount of time to read it because pretty much everything time you only find e-book that need more time to be learn. Clinical Pediatric Neurology: A Signs and Symptoms Approach 5th ED can be your answer as it can be read by a person who have those short free time problems.

John McGinnis:

Many people spending their time period by playing outside using friends, fun activity with family or just watching TV all day long. You can have new activity to enjoy your whole day by looking at a book. Ugh, do you consider reading a book can definitely hard because you have to take the book everywhere? It all right you can have the e-book, bringing everywhere you want in your Touch screen phone. Like Clinical Pediatric Neurology: A Signs and Symptoms Approach 5th ED which is obtaining the e-book version. So , try out this

book? Let's notice.

Julie Slocum:

Is it an individual who having spare time in that case spend it whole day by simply watching television programs or just laying on the bed? Do you need something totally new? This Clinical Pediatric Neurology: A Signs and Symptoms Approach 5th ED can be the solution, oh how comes? A book you know. You are thus out of date, spending your time by reading in this new era is common not a nerd activity. So what these ebooks have than the others?
