**Jeff Wall** By Peter Galassi, James Rondeau

Over the past three decades, Vancouver artist Jeff Wall's large color transparencies have won international acclaim. Wall has created a unique, seductive and complex pictorial universe by drawing upon philosophy, literature, nineteenth-century painting, Neo-Realist cinema and the traditions of both Conceptual art and documentary photography. Organized by The Museum of Modern Art, New York, and the San Francisco Museum of Modern Art, Wall's 2007 American traveling retrospective will include all of the artist's major works to date. In addition to color plates and illuminating details, the exhibition catalogue includes an essay by Peter Galassi that explores the full range of Wall's artistic and intellectual interests and offers fresh perspectives on one of the most adventurous creative achievements of our time. The essay is followed by an interview with the artist by James Rondeau, Curator of Modern and Contemporary Art at the Art Institute of Chicago, where the exhibition will be on view during the Summer of 2007. Also available from The Museum of Modern Art, New York: *Jeff Wall: Selected Essays and Interviews*.

### Editorial Review

#### From Library Journal

There are a number of living artists whose reputations are solid but whose work is sadly unknown outside the art world. Fortunately, the "Contemporary Artists" series will go far to correct that. Affordable, thoroughly illustrated in color, these books provide maximum exposure for the price. Although this is enough to make the series worthy of consideration, it is important to point out what makes it unique. Each volume includes writings by the artists whenever possible. Of the two considered here, painter/printmaker Spero and photographer Wall, the latter is the more verbally prolific. In addition, a piece of literature was preselected by the artist to use as a tool for discussion. Put this together with essays by curators and critics, interviews from throughout the artist's career, and a handy chronology and you get an interesting, overall view of the artist. This multifaceted approach is rewarding not only for its comprehensive view of each individual artist but also because it allows each book in the series to vary according to its subject's strengths. A work in progress?these are the fifth and sixth titles, respectively?this series is a practical buy for most libraries but is especially recommended for academic and large public libraries.?Susan M. Olcott, Columbus Metropolitan Lib., Ohio
