Mental Sweets By Fabien Arcole

The book comprises three chapters. In the first two, we describe our own routines. In the last chapter, we share some of our personal thoughts on classical themes of mentalism, as well as a couple of personal handlings. The first chapter is titled "Sweet Billets". It is dedicated to four effects that all use billets. The second chapter, the title of which is "Other Sweets", deals with experiments that have nothing to do with Billets. This part will cover such concepts as dual reality, psychological forces, pumping, to name a few. In the last chapter - "Sweet Thoughts" - we share some of the principles and ideas that led us to the effects described earlier in the book. For example, the reader will understand why we tend to favor switches over the center tear, or how we design a pumping sequence. All the effects described in this work have been performed many, many times by the authors in various settings, from one-to-one performances to stage shows for large and paying audiences.
