Software Extension to the PMBOK Guide Fifth Edition By Project Management Institute

The importance of computer software to the modern business world is undeniable. Organizations across all industries and geographies are dependent on data processing and electronic communication, and on the software that drives these capabilities. The management of software development projects, just as the management of any other projects, is faced with the need for increased efficiencies, with results expected more quickly, at lower cost, and with higher quality. For decades, the project management approaches contained within A Guide to the Project Management Body of Knowledge (PMBOK® Guide) have formed the foundation for projects across the range of human endeavor. However, some software project managers reported experiencing challenges when seeking to translate the established approaches of the PMBOK® Guide with adaptive approaches such as agile that are more commonly used in software development. Now for the first time, the Software Extension to PMBOK® Guide Fifth Edition brings these two worlds together. This groundbreaking work was developed jointly by PMI with the IEEE Computer Society, the world's premier organization of computing professionals, and draws upon the wisdom of programmers, IT professionals and working project managers from around the globe. Designed to be used in tandem with the latest edition of the PMBOK® Guide, this comprehensive volume closely follows the PMBOK® Guide's approach to style, structure and naming, while providing readers a balanced view of methods, tools, and techniques for managing software projects across the life cycle continuum from highly predictive life cycles to highly adaptive life cycles. Software Extension To the PMBOK® Guide Fifth Edition provides readers with knowledge and practices that will not only improve their efficiency and effectiveness but that of their management teams and project members as well.

From reader reviews:

Sandy Gonsalves:

People live in this new day time of lifestyle always try and and must have the spare time or they will get wide range of stress from both way of life and work. So , whenever we ask do people have free time, we will say absolutely sure. People is human not just a robot. Then we consult again, what kind of activity are you experiencing when the spare time coming to anyone of course your answer may unlimited right. Then do you try this one, reading guides. It can be your alternative within spending your spare time, the book you have read will be Software Extension to the PMBOK Guide Fifth Edition.

Patricia Whitmore:

Playing with family in a park, coming to see the coastal world or hanging out with good friends is thing that usually you might have done when you have spare time, in that case why you don't try matter that really opposite from that. One particular activity that make you not sense tired but still relaxing, trilling like on roller coaster you are ride on and with addition associated with. Even you love Software Extension to the PMBOK Guide Fifth Edition, it is possible to enjoy both. It is good combination right, you still want to miss it? What kind of hang-out type is it? Oh seriously its mind hangout fellas. What? Still don't have it, oh come on its referred to as reading friends.

Rick Maldonado:

Your reading 6th sense will not betray anyone, why because this Software Extension to the PMBOK Guide Fifth Edition reserve written by well-known writer we are excited for well how to make book that may be understand by anyone who all read the book. Written within good manner for you, leaking every ideas and writing skill only for eliminate your hunger then you still skepticism Software Extension to the PMBOK Guide Fifth Edition as good book but not only by the cover but also by the content. This is one reserve that can break don't assess book by its include, so do you still needing another sixth sense to pick that!? Oh come on your looking at sixth sense already said so why you have to listening to one more sixth sense.

Carl Kile:

As a pupil exactly feel bored for you to reading. If their teacher expected them to go to the library as well as to make summary for some reserve, they are complained. Just minor students that has reading's heart and soul or real their leisure activity. They just do what the teacher want, like asked to go to the library. They go to at this time there but nothing reading really. Any students feel that reading through is not important,

boring as well as can't see colorful photos on there. Yeah, it is for being complicated. Book is very important for you personally. As we know that on this time, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. Therefore , this Software Extension to the PMBOK Guide Fifth Edition can make you truly feel more interested to read.
