**The Anatomy of Style! Once in a rare while, an art instruction book comes along** that can be appreciated by anyone, no matter if you want to learn to draw or not. **Patrick Jones**'s fresh, innovative approach breaks the human body down into shapes and rhythms that can easily be committed to memory, demystifying the art of figure drawing in the process. Much more than a book on anatomy, this guide explains how to use knowledge of the human form to produce drawings with style and grace, using pastel, pencil, and charcoal techniques and tools. **HIGHLY RECOMMENDED!**

**Bud's Artbooks**

"An amazing collection of work in the tradition and quite as powerful as the best of Boris, Frazetta, and I would add Howard Pyle. I can't say enough here—his work reminds me at times of Jose Segrelles, one of the very finest fantasy illustrators ever. Don't miss this!!" —Bud Plant on *Sci-Fi & Fantasy Oil Painting Techniques*
