## COMPREHENDING COINCIDENCES By CRAIG BELL

In our daily lives, coincidences occur that grip us or catch us off-guard; and if we are open to their messages, we can use them to direct us on our path in life. Craig Bell provides unique and practical ways to use coincidence for personal transformation. His anecdotes reveal the profound lessons he has learned in his innovative search for meaning in everyday events.

Coincidences and dreams bear marked similarities, the most important of which is that the content of both may be symbolic. Bells offers a few reliable rules that bring symbol analysis within the reach of almost everyone. Incorporating elements of psychology, spirituality, and metaphysics, the author synthesizes Western quantum physics and Eastern metaphysics to explain how our psychological world may structure itself to provide meaningful coincidences.

## Editorial Review

### About the Author

Craig S. Bell has had a long career as an airline pilot and is now a professional writer. He began his twenty-five-year-long investigation of the meaning of coincidences while he was an Air Force pilot in the Vietnam War. His interest in coincidences evolved from his success in analyzing dreams, a product of his undergraduate studies in psychology. He is the author of *Dreams: Answers about Yourself*.

Coincidences prick our curiosity and our sense of wonder, yet we're usually not sure how to treat them. This is because they don't appear to be governed by the cause-and-effect relationship we use to explain the flow of most events about us. Your radiant smile causes another to smile back; flicking the switch causes the light to come on. These sequences are simple and logical. But how do you explain the fact that, just as you were thinking about your ex-lover, you stopped at a traffic light behind a car with a license plate that precisely displayed the numerals for the month, day, and year of his birth? Not only are we mystified about the hidden mechanisms in our world that can produce such a simultaneous connection, we are often just as much in the dark when it comes to recognizing the meaning of coincidences.

The good news is that the cloak concealing the significance of coincidental events may be removed without much difficulty. Then, we find revealed not just meaning, but often wisdom and guidance as well.
