**Lecture Notes: Haematology** By Chris S. R. Hatton, Nevin C. Hughes-Jones, Deborah Hay, David M. Keeling

*Haematology Lecture Notes* is an accessible and concise best-selling study guide, outlining the physiology, pathology and treatment of the most common blood disorders. Extensively revised and updated to reflect the considerable advances in the understanding of the molecular biology and pathogenesis of haematological disorders, it provides the core knowledge required by all medical students and junior doctors.

Key features include:

- New material on coagulation and transfusion
- Expanded coverage of haematopoiesis
- A complete update of all malignant haematology content

A brand new companion website at [www.lecturenoteseries.com/haematology](http://www.lecturenoteseries.com/haematology) featuring interactive MCQs with feedback on each answer selected, chapter summaries and revision notes in PowerPoint and PDF formats, and all the figures from the book in PowerPoint format

Whether approaching haematology for the first time, or looking for a refresher, *Haematology Lecture Notes* will enable students and junior doctors to develop an understanding of both the basic science and clinical aspects of this specialty.
