Object-oriented JavaScript - Second Edition - Learn a More Powerful Approach to Web Development By Stoyan Stefanov, Kumar Chetan Sharma

Rethink JavaScript with this complete and comprehensive guide to a unique and innovative approach to the leading language of web development. This book shows you everything you need to learn object oriented JavaScript, demonstrating valuable techniques and strategies that you can use to fully experience the impressive capabilities of the language. With an object oriented approach to JavaScript you will optimize and improve your projects and productivity, and uncover a modern and forward-thinking development methodology.

Gain an in-depth knowledge of JavaScript's data structures, and learn how different components interact with one another. Look closely at numbers, Booleans and strings, and learn how arrays, loops and conditions help you to effectively manipulate and work with complex data using JavaScript. You'll also find guidance and insight into the relationship between functions and objects, as well as accessible instructions on how to use them most effectively when working with JavaScript. Learn how to use prototypes, including augmenting built-in objects and learn coding patterns and design patterns to improve your JavaScript code.

- Harness the full capabilities of JavaScript by learning effective coding patterns
- Learn high quality JavaScript design patterns to tackle common JavaScript development challenges
- Dive in and learn JavaScript's data structures
- Learn how to use prototypes
- Improve script performance
- Find out how an object oriented approach to JavaScript can improve your programs faster and more functional with other libraries

Editorial Review

From the Author
This "edition" is a draft that I didn't approve. While this state of affairs is being repaired, please consider buying the first edition: amazon.com/dp/1847194141

Best regards,
Stoyan Stefanov

About the Author

Stoyan Stefanov

Stoyan Stefanov is a Yahoo! web developer, Zend Certified Engineer, book author and contributor to the international PHP community. He talks regularly about JavaScript, PHP and other web development topics at conferences and his blog **http://www.phpied.com** and also runs a number of other sites, including **http://www.JSPatterns.com** - a site dedicated to exploring JavaScript patterns. Stoyan is the engineering lead of Yahoo's performance optimization tool YSlow, as well as other open-source tools and PEAR libraries.

Kumar Chetan Sharma

Kumar Chetan Sharma studied to be an electronics engineer and has always wanted to build an ultimate sound system. He then, by chance, got a part time job as a trainee HTML guy. From there he picked up CSS and JavaScript and there was no looking back. It was the time when JavaScript was used to validate forms or create fancy DHTML effects and IE6 was the only browser the world knew. He has been developing web applications since then, using LAMP stack. He has worked on white label social networking applications to web control panels for telecom and networked electrical charger infrastructures. He currently works as a frontend engineer for Yahoo! Search.

Users Review

From reader reviews:

Mary Gale:

Do you have favorite book? When you have, what is your favorite's book? Reserve is very important thing for us to find out everything in the world.
