An unmarked package...

A new apartment...

And a case of curiosity that will change everything...

When Alexia moves into a new apartment, the petite co-ed is ready to start her life as an adult. But when an unmarked package shows up on her doorstep, her dreams of growing up might come crashing down around her.

And it's all because she can't help herself. The box is a mystery. She needs to know what's inside. But when she opens a package that was never meant for her, what she finds brings up more questions, and no answers.

Alexia has no idea why someone would send a box of adult diapers to her apartment. That's what leads her to spend the night online, learning everything she can about the opened package sitting by her door. And what she discovers is a world where growing up is just an option. A lifestyle where acting the age you feel, not the age you are, is not only okay, but desired.

Age Play. Adult Babies. ABDL. Alexia loses herself in this new world. She starts dreaming of diapers and discipline. She imagines herself living a life that she wants, not the one she feels forced into.

And when Olivia, the owner of the mysterious package, shows up at Alexia's front door, fantasy meets reality. Because when the buxom beauty finds her delivery open and her diapers out, she can't help but make Alexia an offer.

Olivia wants to nurture Alexia's curiosity. She wants to show Alexia what being a baby again would feel like. She'll put Alexia back into diapers. She'll force her to crawl. And if Alexia misbehaves, Olivia will pull her over a knee and spank her bad baby girl until she promises to be good.

Now all Alexia has to do is say yes. And the only thing stopping her isn't the idea of being treated like a child again, but the fear that she might like it all too much...

This novel length story contains heavy age play themes, a confused and curious co-ed, cute and thick diapers, girl on girl action, a nurturing but strict Mommy, and a surprising relationship neither woman expected to find.
