Editorial Review

From the Author

2016 REVISED AND UPDATED - ALL FIXES

This thoroughly field tested book includes all the content, question types, constructed responses and practice tests you need to get a passing score on the CORE tests.

The book includes strategies and graded examples for the new Source-Based constructed responses. Other books omit these important Source-Based responses. These responses are often the reason for achieving a passing score.

It is usually best to register for all three tests -- CORE Academic Skills for Educators: Combined Test (5751), at about half the cost of three individual tests. The book gives specific advice taking the tests at computer based testing centers.

The Praxis CORE is not like the GRE, ACT, or SAT. You do not compete for a higher score. You just need at or above the minimum score. Steps for achieving the required score are given in the book.

Barron's and I are here to help you effectively prepare for the computer-based Praxis CORE tests.

I will respond to your questions or comments.

Bob Postman
