Body between Materiality and Power By Nasheli Jiménez del Val

This volume situates and problematizes the points of tension implicated in diverse historical and theoretical conceptualizations of the body through a visual studies framework. By proposing materiality and power as two polarities through which the body is mobilized, it highlights the interstitial function of the body as a mediator between materiality and politics beyond the body/soul-mind dichotomy. Specifically, the book brings together complex analytical approaches to representations of the body in diverse media, such as the visual arts, television, film, literature, architecture, dance, and theatre, among others. As a result, and to highlight the interdisciplinary dimension of this collection of essays, *Body between Power and Materiality* includes texts by scholars in a wide range of fields, from art historians, media studies experts, and sociologists to literary theorists.
