### **ABOUT THE CSA+ CERTIFICATION**

CompTIA certifications are globally recognized for their quality and rigorous standards. The Cybersecurity Analyst (CSA+) certification applies behavioral analytics to improve the overall state of IT security. It validates the knowledge and skills required to configure and use threat detection tools, perform data analysis and interpret the results to identify vulnerabilities, threats and risks to an organization, with the end goal of securing and protecting applications and systems within an organization. CompTIA CSA+ is also ISO/ANSI 17024 accredited. Visit <https://certification.comptia.org/certifications/cybersecurity-analyst> for more information.
