Cadet Programs - Encampment Training Manual By Civil Air Patrol

General. To carry out the mission of encampment we are provided with certain tools and constraints. This manual outlines the curriculum for the minimum academic material to cover with a leadership training course, and with the opportunities offered by the facility hosting the encampment. The most essential ingredient to a successful encampment however is the people: in attendance as flight members, and those responsible for them. For this reason, it is critical that the roles, duties, and responsibilities of each person who attends are thoroughly defined. The goal of each staff member should be to give the substance to the encampment that makes it a worthwhile experience for the cadets who attend. In turn, the staff should also be constantly striving to learn and enhance their own education. Each cadet in flight or on staff should be able to bring something back to their home units to improve upon them. 1-2. Philosophy. Encampment can be the most significant, worthwhile training experience in a CAP cadet's career. Training is what the encampment is all about; in-flight cadets and staff members, both cadet and senior, are all trained. To achieve the overall goals set by CAPR 52-16 (Ch. 5), a positive attitude is essential. Each staff member has an obligation to learn as much as they possibly can and to offer the highest quality of training possible to others. The staff must always remember that their first duty is to the members of the basic flight- they are the customers.
