The Adept Magician By Marten Crawford

Jef (the Adept) started out in life working on a trawler up to his neck in fish guts. But one day he bought occult books in a little book store specialising in magic. The books were based upon Western Hermetic Magic and they took him all the way to the first great Transformation:

I was blissfully unaware of real transformation, until I was confronted by the first in July 1975. It came when I least expected it, in a place I would least expect to meet the initiator; 11 AM in a crowded public marketplace.

My sponsor knew it was about to happen, but was bound to keep me unaware.

His one concession to me out of friendship, was to ask that I wear a red cord tied around my solar plexus under my shirt that day.

I did as he requested.

The experience was so trying that I lay sick for three days, part of me in this world and part of me in another place. During those three days, I dreamed the

same dream over and over. To this day, I'm not at all sure if it was a dream.

When I came back to myself, my power had increased a thousandfold or more

and I knew all I needed to know of the other two transformations, to set about working toward achieving each in its turn.

On and on Jef went pushing through light and dark- even on to the the second and yes astonishingly, even to the third great Transformation where:

Something I have never bothered to mention is that the non-spatial continuum may be manipulated in any way the fully transformed magician wills. The reason I do not choose to do so is something of a paradox.

The ability to manipulate time in order to serve the magician to his/her benefit comes with the third Transformation. With the third transformation all reason for altering the continuum vanishes.

My sponsor tried to teach me this many years ago: unfortunately, I was incapable at that point of understanding, or appreciating the simple magic of concentric rings...

Jef went all the way, even to where visions of the forth great transformation and its relationships began appearing in meditations:

Wraith-like shadows, singing the coloured symbols I have yet to fully master, float above, below, beside and through me, as though I am in a glorious waking dream.

I now understand that the third Great Transformation is not a sudden change, but a slower process. Nor is it magic, being something else entirely. The transformation enables the magician to not only create and de-create across the four worlds of this universe, but also allows one to leave the alpha universes behind and begin anew in another existence entirely... if the initiate so desires.

As the author I'd like to say thank you to Jef from the bottom of my heart.
