**The Fourth Paradigm: Data-Intensive Scientific Discovery** From Brand: Microsoft Research

This book presents the first broad look at the rapidly emerging field of data-intensive science, with the goal of influencing the worldwide scientific and computing research communities and inspiring the next generation of scientists. Increasingly, scientific breakthroughs will be powered by advanced computing capabilities that help researchers manipulate and explore massive datasets. The speed at which any given scientific discipline advances will depend on how well its researchers collaborate with one another, and with technologists, in areas of eScience such as databases, workflow management, visualization, and cloud-computing technologies. This collection of essays expands on the vision of pioneering computer scientist Jim Gray for a new, fourth paradigm of discovery based on data-intensive science and offers insights into how it can be fully realized.

### **Editorial Review**

#### **About the Author**

Tony Hey is Vice President of Microsoft Research and has published over 150 research papers on particle physics, computer science and multi-disciplinary eScience. He is the co-author, with Ian Aitchison, of the graduate textbook Gauge Theories in Particle Physics (4th edition) and co-editor of Richard Feynman's Lectures on Computation. He is also co-author of popular science books on quantum mechanics and relativity, The New Quantum Universe and Einstein's Mirror. Most recently, he co-edited The Fourth Paradigm, a book about eScience and the new era of data-intensive science.

### **Users Review**

#### **From reader reviews:**

##### **John Lee:**

Why don't make it to become your habit? Right now, try to prepare your time to do the important behave, like looking for your favorite guide and reading a reserve. Beside you can solve your problem; you can add your knowledge by the book entitled The Fourth Paradigm: Data-Intensive Scientific Discovery. Try to the actual book The Fourth Paradigm: Data-Intensive Scientific Discovery as your pal. It means that it can to become your friend when you sense alone and beside regarding course make you smarter than in the past. Yeah, it is very fortuned for you personally. The book makes you far more confidence because you can know everything by the book. So , let us make new experience and also knowledge with this book.

##### **Floretta Simmons:**

As people who live in the modest era should be revise about what going on or info even knowledge to make these individuals keep up with the era and that is always change and move forward. Some of you maybe will probably update themselves by studying books. It is a good choice for you but the problems coming to an individual is you don't know which one you should start with. This The Fourth Paradigm: Data-Intensive Scientific Discovery is our recommendation to cause you to keep up with the world. Why, because book serves what you want and need in this era.

##### **Matthew Simons:**

The particular book The Fourth Paradigm: Data-Intensive Scientific Discovery has a lot details on it. So when you make sure to read this book you can get a lot of gain. The book was published by the very famous author. The writer makes some research prior to write this book. That book very easy to read you may get the point easily after reading this article book.

**Sherrie Beardsley:**

Guide is one of source of expertise. We can add our knowledge from it. Not only for students but native or citizen will need book to know the change information of year in order to year. As we know those guides have many advantages. Beside we add our knowledge, also can bring us to around the world. By the book The Fourth Paradigm: Data-Intensive Scientific Discovery we can consider more advantage. Don't you to be creative people? To become creative person must choose to read a book. Only choose the best book that acceptable with your aim. Don't end up being doubt to change your life with this book The Fourth Paradigm: Data-Intensive Scientific Discovery. You can more desirable than now.
