## **Editorial Review**

### **Review**

"Overall, this is an exceptionally well-produced book. It would be a valuable study guide for students, and it would be a valuable easily accessible resource for both new and experienced clinicians. It is a book that I highly recommend." **Otometry and Vision Science, Vol. 91, No. 1**

"This is a wonderful reference on anterior segment conditions. The addition of the chapter of slit lamp techniques is welcomed and can help even seasoned ophthalmologists to fine tune their slit lamp skills." - Elizabeth Chiang, MD, PhD(Northwestern University Feinberg School of Medicine) **Doody Review: 5 stars**
