Freelance Saga Episode 4: Beta Shift By Scottie Futch

In episode 4 of Freelance Saga Scott Hunter learns the reason for his troubles during the Quantum Interference arc! He further discovers that the world of Alterra has undergone a major system update in anticipation of an upcoming end to the beta test. The world will go live in a few short months and people from Earth will be visit in large numbers! Can he still possibly become the Dark Lord of Alterra? Will he lead an army of powerful and nubile monster girls?

Granted an updated class, and a fresh start free of corruption, Scott has to prepare for his future and learn to handle the naughty possibilities.

This litrpg series has just entered the next major story arc! The tutorial... is truly over. Let the true adventure begin. This episode concludes the tutorial and beta testing arc of Freelance Saga. Volume II is up next.

This story is slightly related to the story series known as Origin A.R.S. The connection is a minor thing, but it is part of a related concept that will include several different world settings with a similarly named main character.

Consider these stories to be 'alternative universe settings' with a similar main lead. They are a collection of "What if" stories with a main character that has a lot in common with the other similarly named main characters, but each is their own existence with their own unique back story. Each story will also have their own 'litrpg' style of telling, and the 'game' concept is different in each one.
