### Loudspeaker and Headphone Handbook From Focal Press

Written by a team of experts, the Loudspeaker and Headphone Handbook provides a detailed technical reference of all aspects of loudspeakers and headphones: from theory and construction of transducer drive units and enclosures, to such practical matters as construction, applications in rooms, public address, sound reinforcement, studio monitoring and musical instruments. Loudspeaker measurements and subjective evaluation are treated in equal detail and headphones are discussed comprehensively.

This third edition takes account of recent significant advances in technology, including:

- the latest computer-aided design systems
- digital audio processing
- new research procedures
- the full range of loudspeakers
- new user applications.

### Editorial Review

#### Review

"If you are seriously into speaker design then it is worth getting a copy to have everything you'd need in one place." - Lighting and Sound International

'The third edition continues its authoritative tradition with a lineup of star contributors including Keith Holland, John Watkinson, Philip Newell and is edited by John Borwick. It covers popular practice and technical theory in a variety of contexts including sound studios and sound reinforcement, and is rich in graphs, figures, illustrations and photographs.'

Studio Sound June 2001

Reviews of previous editions:

'This book brings together in a single volume every aspect of loudspeaker and headphone theory and practice in sufficient depth to equip students and practitioners alike with a solid working knowledge of the subject.'
